Industry-based Capstone Projects

Opportunity to learn and grow with Adani Group

100% placement track record

Adani Institute of Digital Technology Management (AIDTM) is committed to bridging the gap between visionary concepts and the transformative power of cutting-edge technology. Our state-of-the-art campus, coupled with expert faculty and practical learning experiences like internships, and capstone projects, equip students for successful careers in any tech-oriented industry.

At AIDTM, we focus on developing data-driven decision-makers. Since our inception in 2020, we've been dedicated to creating industry-ready professionals in Big Data Analytics, and Artificial Intelligence & Data Science. Even students without a technical background can thrive here.

Big Data Analytics helps in building reliable, robust, and inexpensive solutions and strengthens the decision-making power by using values of predictive analytics, descriptive analytics, and prescriptive analytics. BDA concrete decisions using supervised, semi-supervised, and unsupervised algorithms.

AI & Data Science focuses on Machine Learning, Deep Learning, Reinforcement Learning, Natural Language Processing (NLP), Computer Vision, Explainable AI (XAI), Gen-AI, and Integrating AI with Big Data & Cloud Technologies courses.

Mock Interviews

This preparation is a key part of our student's holistic development and career readiness. These sessions simulate technical and behavioral interview scenarios, helping students build confidence, refine their responses, and enhance their communication skills.

Rural Entrepreneurship

Rural Entrepreneurship visits play an impactful role in our students in building their conviction and they even had the unique opportunity to learn from his royal highness of Muli, Shri Ranjitsinh Parmar, at the Palace.

Through this insightful gateways students gains practical exposure to essential leadership qualities, business acumen, and the art of being a solution provider.

Inspire the Next

Our students get unparalleled access to industry leaders and cutting-edge knowledge via expert sessions and guest lectures from renowned companies.

These sessions empower students with real-world perspectives, practical insights, and valuable networking opportunities.

With guidance from industry experts and tailored feedback, students are equipped to excel in job interviews and secure their dream roles, in nurturing career-ready professionals.

Industrial Visits

The Thar Dry Port
Hasti Petro Chemical & Shipping Ltd. (HPCSL)

Panasonic Life Solutions India Pvt. Ltd.

Adani Ports and SEZ Ltd.
(APSEZ)

Gujarat Adani Institute of Medical Sciences
(GAIMS)

Academic Industrial visits provide students with firsthand exposure to diverse businesses.These experiences help students understand real-world operations, supply chains, and community-driven business models, enhancing their business acumen and strategic thinking.

Networking Events

Networking events organized in association with communities like ERA, eChai, GEO, Alumni Talks, Declutter Health offers the students an unique opportunities to connect with business leaders and successful entrepreneurs.

These interactions provide valuable insights into industry trends, entrepreneurial paths, and leadership strategies. Such experiences deepen student's understanding of business dynamics and help them build essential networks for career advancement.

Hackathon

In collaboration with MSBC Group, The Hackathon provided students with a unique platform to sharpen their problem-solving and innovation skills in various topics such as audio analytics, persona builders and news analytics.

This hands-on experience allows students to gain practical knowledge, compete with various participants from different institutes & startups. It helps to tackle real-world challenges.

Summer Internship 2023-25

- Automating User Behavior Data Collection
- Anomaly Detection Using Isolation Forest
- Web Text Extraction App
- Web Analysis & Competitive Intelligence Report
- Automation of Excel Report Generation
- Mobile-Optimized Treasury Financial Dashboard
- Movie Recommendation System
- Email Spam Classification
- HR Analytics Dashboard
- Heart Attack Prediction Analysis
- Airlines Data Dashboard
- Pumrow Employee / Contractor Data Analysis

- Standardization of SCADA Tags
- Competitive Analysis & Benchmarking Report
- Web Scraping for Real Estate Data
- Automation of HR, Sales & Operations Dashboards
- SEO Analytics & Web Traffic Report
- Machine Learning-Based Property Valuation Calculator
- Interactive Data Visualization with Python
- Property Price Prediction Model
- Sales Coordinator DPR Dashboard
- Sales / Leads Data Analysis
- Automation of application uninstallation using a Python script
- Marketing Leads Dashboard

Tools & Technologies used in Internship
